Advanced Steps ACP Instructor Certification

Thursday, April 22

Advance care planning for individuals with serious life-limiting illness is complex and challenging. Respecting Choices Advanced Steps Advance Care Planning (ACP) incorporates the National POLST into this stage of planning. Achieving desired outcomes of National POLST requires a thoughtful approach to implementation strategies and person-centered ACP conversations. The Respecting Choices Advanced Steps ACP program's systematic approach results in a National POLST form that aligns with individual goals, values, and preferences.

Organizations interested in replicating the Advanced Steps ACP model will find it valuable to register representatives for all three days. Participants are welcome to register for any of the courses independently, based on their objectives.
